(Numbers 1001-1050)

and placed on sale by H. M. Stationery Office

C.P. No.	Council No.	Title	Author(s)
1001	29 660	The pilot's safety problem in Category II operations and the potential contribution of head-up display. Initial investigation of head-up display at BLEU. (June, 1966).	Morrall, J. C.
1002	29 360	The development at Cranfield of a free piston compression shock tube. (February, 1967).	Pratt, M. J.
1003	29 965	Aircraft loading actions problems - Proceeding of a symposium held at Farnborough on 28th October, 1966. (July, 1967).	Edited by:- Taylor, A. S. and Eckford, D. J.
1004	30 215	The new system for controlling the attitude and motivator deflections of a model in the RAE No.19 wind tunnel. (January, 1968).	Pecover, B. E.
1005	29 300	The calculation of the pressure distribution on a thick cambered aerofoil at subsonic speeds including the effects of the boundary layer. (June, 1967).	Powell, B. J.
1006	30 166	The longitudinal characteristics of three slender 'Mild Ogee' wings at Mach numbers from 0.4 to 2.0. (August, 1967).	Mabey, D. G. and Hlott, G. P.
1007	29 755	Low-speed measurements of skin friction on a large half-model slender wing. (August, 1967).	Wyatt, L. A. and East, L. F.
1008	28 604	Diffraction of blast wave for the oblique case. (December, 1966).	Scrivastava, R. S.

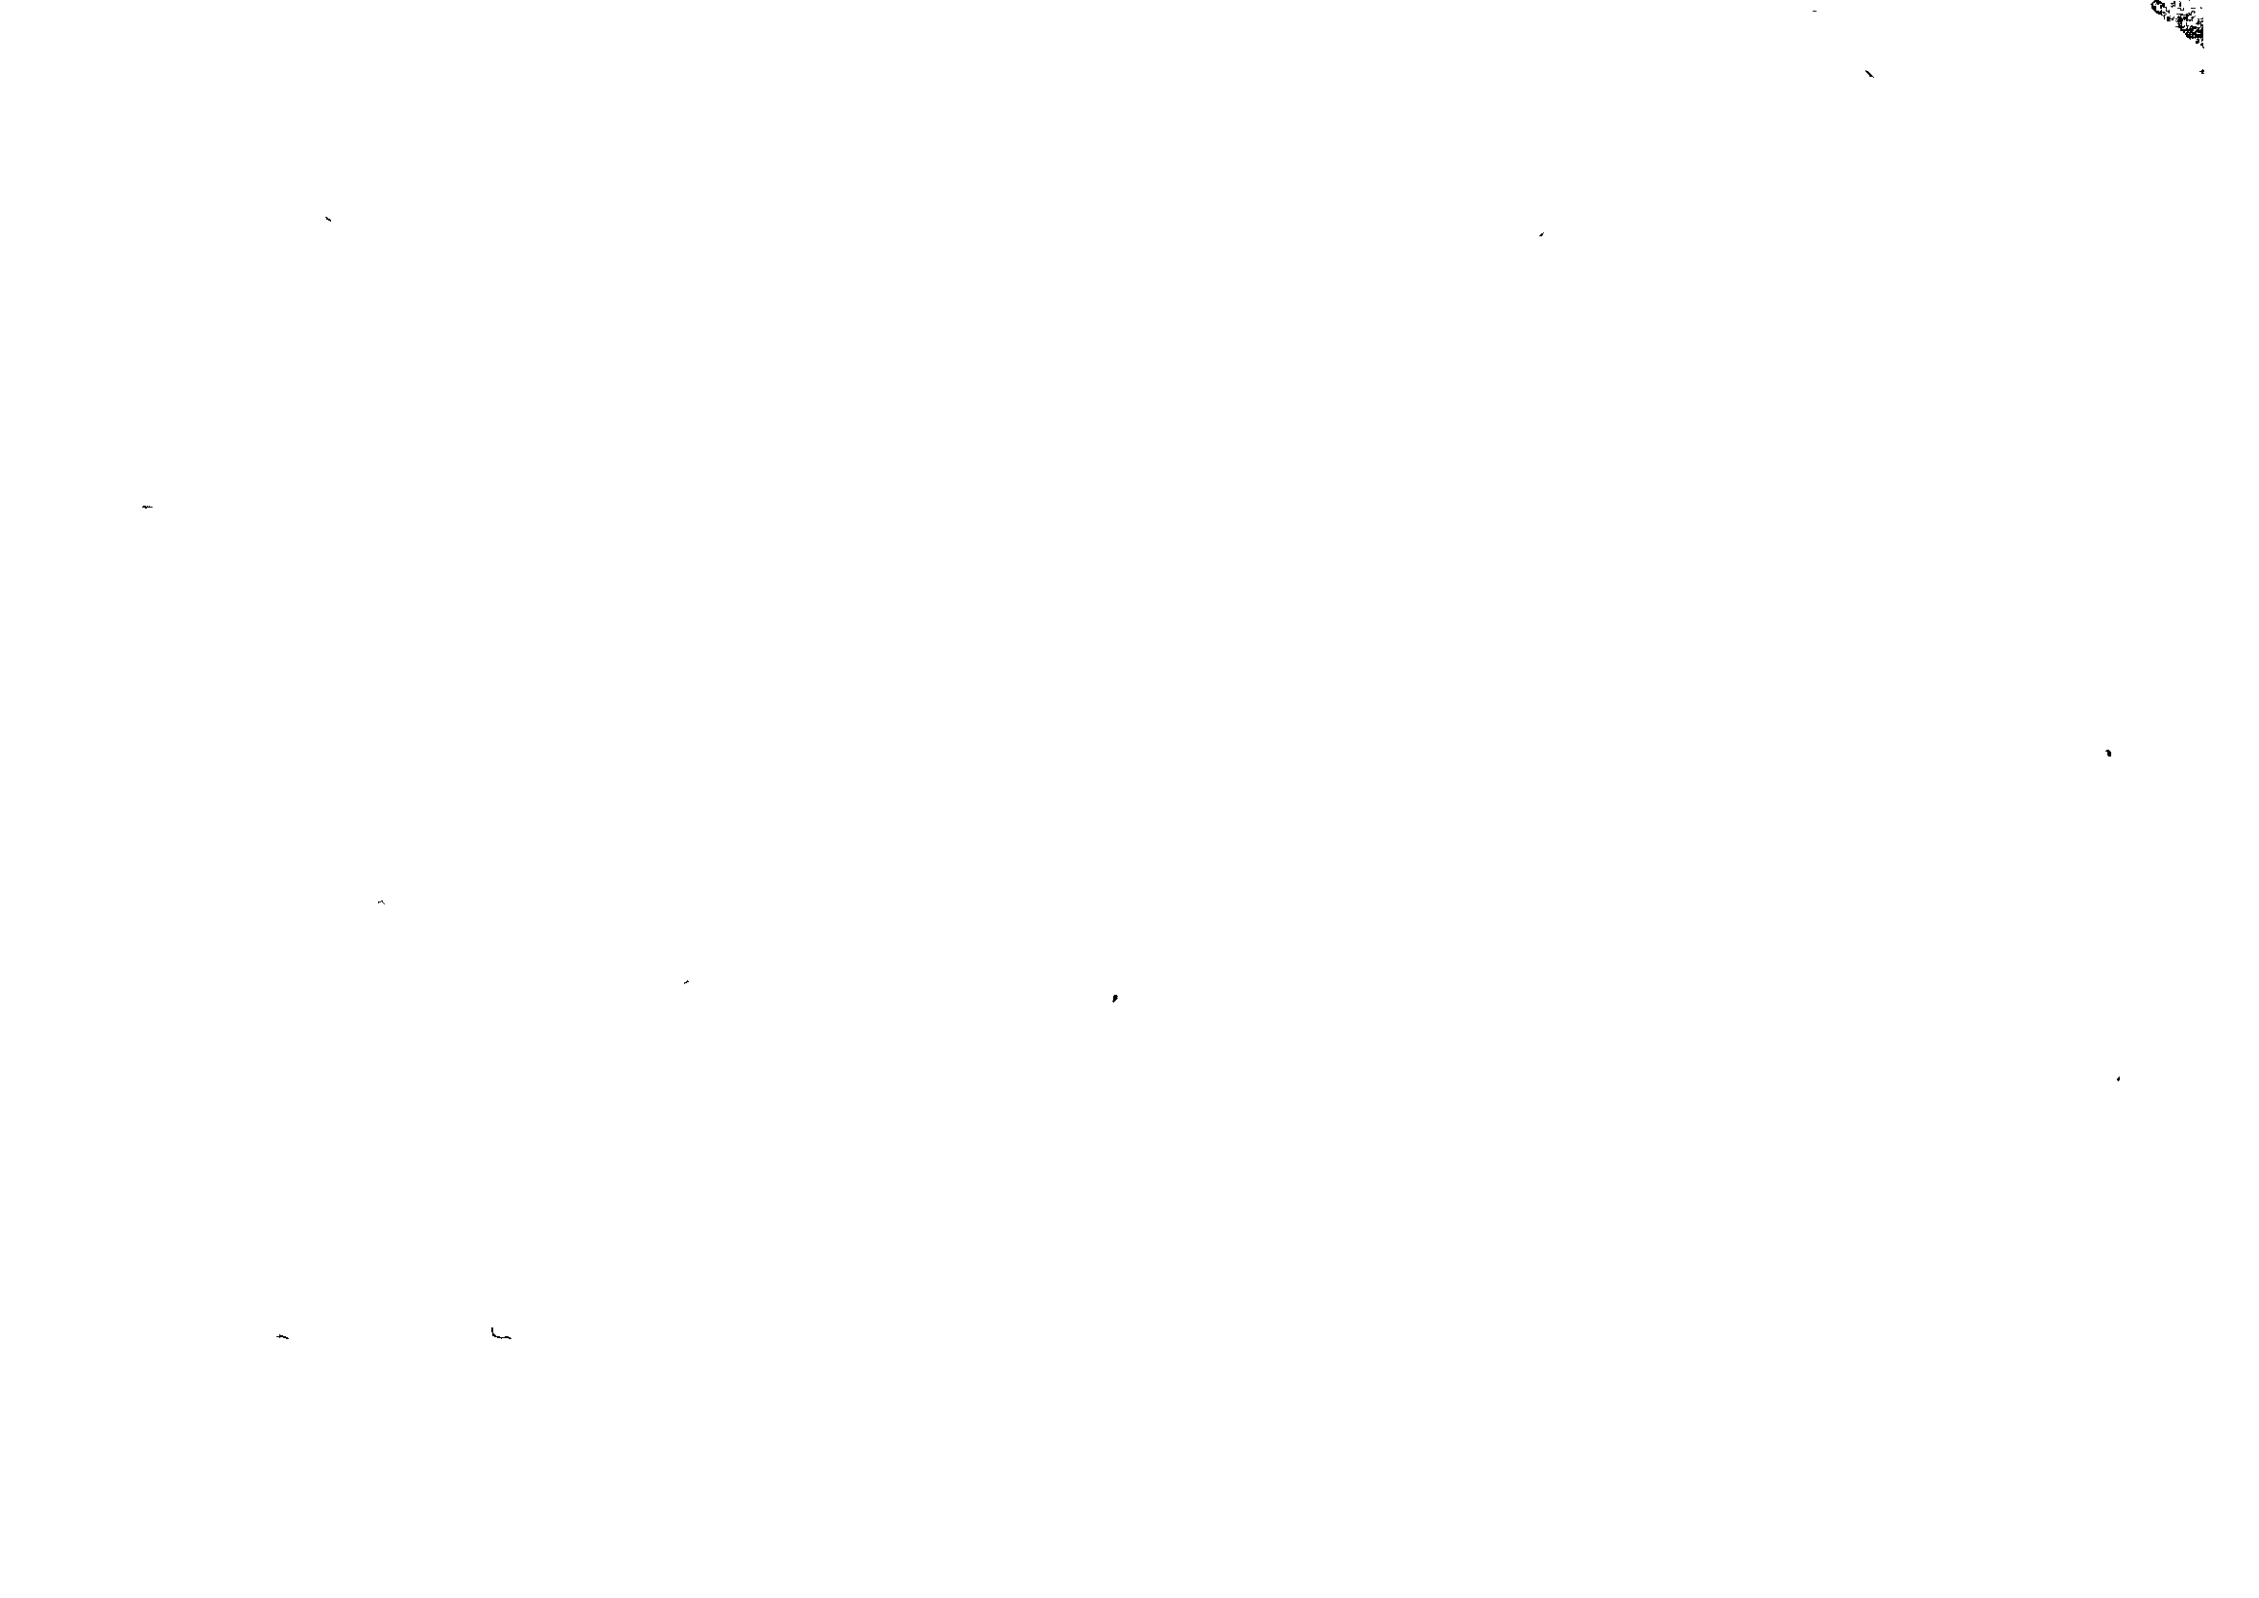

C.P. No.	Council No.	Title	Author(s)
1009	29 841	Atmospheric turbulence and aircraft height-keeping accuracy. (August, 1967).	Piggott, B. A. M.
1010	28 940	A battery-operated four-channel tape recorder for use in acoustic measurements in flight. (October, 1966).	Hunt, F. L. and Fairhead, B.
1011	28 688	Characteristic of aft-mounted all-moving rectangular control surfaces on a slender cruciform vehicle at Mach numbers from 0.6 to 2.8. (October, 1966).	Winter, K. G. and Mills, Susan M.
1012	28 190	Further measurements of transient pressures on a narrow-delta wing due to a vertical gust. (April, 1966).	Roberts, D. R. and Hunt, G. K.
1013	29 928	The influence of density gradients on the effectiveness of film cooling. (February, 1968).	Pai, B. R. and Whitelaw, J. H.
1014	28 800	Aerodynamic characteristics at $M=4.3$ of monoplane, triform and cruciform slender delta-wing bodies with all-moving tail control surfaces. (October, 1966).	Treadgold, D. and Pierce, D.
1015	29 277	The stability and control flight testing - some of the test instrumentation requirements. (May, 1967).	Rose, R.
1016	30 294	Forces on cone cylinders at $M=3.98$. (November, 1967).	Moore, K. C.
1017	29 522	Some notes on fuel boiling losses and fuel-tank pressurisation in a long range supersonic aircraft (June, 1967).	Lester, W. G. S.
1018	30 405	Measurement of the effects of thickness on vortex breakdown position on a series of sharp-edged delta wings. (February, 1968).	Earnshaw, P. B.
1019	28 957	On the driver reservoir technique Part 1 Application to shock and gun tunnels Part 2 Determination of optimum reservoir size (January, 1968).	Davies, L., Dolman, K., Davies, L., Brown, D. R. and Hooper, G.

C.P. No.	Council No.	Title	Author(s)
1020	29 498	A comparison of some methods for predicting creep strain and rupture under cyclic loading. (April, 1967).	Clarke, J. M.
1021	29 905	The derivation of power spectra of density variations in hypersonic wakes from schlieren photographs. (September, 1967).	Thompson, J. P.
1022	29 175	The performance of an aerofoil in stationary and rotating cascades. (April, 1967).	Deverson, E. C., Marsh, H. and Oxford, J. T. B.
1023	27 322	Some comments on the conditions in a local supersonic flow region. (January, 1967).	Moulden, T. H.
1024	29 484	An investigation of stress redistribution caused by creep in a thick-walled circular cylinder subjected to axial and thermal loading. (June, 1967).	Clarke, J. M.
1025	30 507	Measurements of fluctuating pressures in and behind the bomb bay of a Canberra aircraft. (April, 1968),	Skingle, C. W. Willcox, N. M. and Gaukroger, D. R.
1026	30 569	The effect at $M=1.7$ of removing swept endwalls from a wedge compression intake. (March, 1968).	Shaw, M.
1027	29 564	Calculation of compressible turbulent boundary layer on a flat plate. (August, 1967).	Patankar, S. V.
1028	28 747	The economic effects of meteorological forecasting standards for supersonic civil transports. (September, 1966).	Courtney, A. L.
1029	28 527	Notes on the automatic control of a blowdown wind tunnel. (July, 1966).	Pugh, P. G. and Ward, L. C.
1030	29 887	The effects of extended practice on performance in a tracking task. (December, 1967).	Hornby, R. C. and Wilson, R.

C.P. No.	Council No.	Title	Author(s)
1031	30 004	A new method of measuring the impedance of the human respiratory system at moderate frequencies. (September, 1966).	Maslen, K. R. and Rowlands, G. F.
1032	30 135	Flight and tunnel measurements of pressure fluctuations on the upper surface of the wing of a Venom aircraft with a sharpened leading-edge. (November, 1967).	Rose, R. and Nicholas, O. P.
1033	30 817	A method for the prediction of the probabilities of aircraft fatigue failures within a fleet of known size. (July, 1968).	Stagg, A. M.
1034	30 259	An analysis of some major factors involved in normal take-off performance. (December, 1967).	Perry, D. H.
1035	30 407	Calculation of the response of a transport aircraft to continuous turbulence and discrete gusts and a comparison with flight measurements. (April, 1968).	Mitchell, C. G. B.
1036	30 067	On the prediction of laminarisation. (February, 1968).	Lauder, B. E. and Jones, W. P.
1037	30433	An EMA program for the analysis of plane stress problems. (October, 1967).	Buller-Sinfield, Jane.
1038	30 708	Loads experienced in turbulence by a Central African Airways Viscount without and with cloud warming radar. (March, 1968).	Bullen, N. I. and Aplin, Judy. E.
1039	30 212	On the flexure of a conical frustum shell. (October, 1967).	Mansfield, E. H.
1040	26 302	The drag of infinite swept wings with an addendum. (June, 1964).	Cooke, J. C.
1041	30 958	The use of calibrated strain gauges for flight load determination. (July, 1968).	Hovell, P. B., Webber, D. A. and Roberts, T. A.

C.P. No.	Council No.	Title	Author(s)
1042	30 529	The airborne path during take-off for constant rate-of-pitch manoeuvres. (March, 1968).	Perry, D. H.
1043	30 428	Measurements of secondary flow in the boundary layers of a 180 degree channel. (August, 1968).	Patel, V. C.
1044	30 153	Wind-tunnel investigation of jet interference for underwing installation of high bypass-ratio engines. (March, 1968).	Raney, D. J., Kurn, A. G. and Bagley, J. A.
1045	31 034	A control and measurement system for aeroelastic model tests. (September, 1968).	Hicks, W. D. T.
1046	30 502	Methods of solving the flutter equations in use at RAE. (February, 1968).	Niblett, Ll. T.
1047	30 621	Design of a symmetrical section with specified pressure distribution. (May, 1968).	Sells, C. C. L.
1048	30 821	Non-linear structural dynamics in aeronautics. (January, 1969).	Simpson, A.
1049	29545	Short-cowl front-fan turbojets; Friction drag and wall-jet effects on cylindrical afterbodies. (June, 1967).	Green, J. E.
1050		List of Current Papers published for the Aeronautical Research Council. (Nos. 1001 to 1050).
