Published Reports and Memoranda of the Aeronautical Research Council (Nos. 3451 to 3550)

Reports and Memoranda No. 3550
January 1969

This paper lists one hundred titles which have been published in the R. & M. Series of the Aeronautical Research Council.

The Council number is included for the purpose of record only.

The R. & M. Series is published and placed on sale by H.M. Stationery Office.

R. & M. No.	Council No.	Title	Author(s)
3451	25 874	A moving-belt rig for ground simulation in low-speed wind tunnels. December, 1963.	Butler, S. F. J. Moy, B. A. Pound, T. N.
3452	27 140 26 680	Studies of slotted-wall interference using an electrical analogue. Parts I and II. June, 1965.	Rushton, K. R.
3453	27 107	The calculation of generalised forces on oscillating wings in supersonic flow by lifting surface theory. April, 1965.	Harris, G. Z.
3454	26 674	The longitudinal response of a flexible slender aircraft to random turbulence. August, 1964.	Huntley, E.
3455	19 227 20 037 21 019	Wind tunnel studies of leading edge separation phenomena on a quarter scale model of the outer panel of the Handley Page 'Victor' wing with and without drop. January, 1965.	Wallis, R. A.
3456	26 116 26 195	The unsteady forces on finite wings in transient motion. Part I. Initial aerodynamic forces following a sudden change of incidence. Part II. Transient lift and moment functions for rectangular and delta wings. September, 1964.	Dore, B. D.
3457	26 504	Wind tunnel tests of a wing fitted with a single lifting fan. December, 1964.	Gregory, N. Raymer, W. G. Love, Edna M.

R. & M. No.	Council No.	Title	Author(s)
3458	26 509	A review of recent research on handling qualities of and its application to the handling problems of large aircraft. Part I. Observations on handling problems and their study. Part II. Lateral-directional handling. June, 1964.	Bisgood, P. L.
3459	26 625	Experiments concerning the effect of trailing edge thickness on blade loss and turbine stage efficiency. October, 1964.	Johnston, I. H. Dransfield, D. C. Fullbrook, D. J.
3460	26 683	Dynamic tests on free-flying models of slender wings subjected to sidegusts. August, 1964.	Gray, W. E.
3461	26 711	Tests on a simulated lifting fan system with inlet cross flow. August, 1964.	Turner, R. C. Sparkes, D. W.
3462	26 819	Feed-back accelerometer circuits with a velocity output. September, 1964.	Evans, R. H. Haigh, G. G.
3463	26 830	A new two-parameter family of mean velocity profiles for incompressible turbulent boundary layers on smooth walls. April, 1965.	Thompson, B. G. J.
3464	26 897	The development of injector units for jet-lift engine simulation on low-speed-tunnel models. February, 1965.	Wood, M. N. Howard, J. B. W.
3465	26 955	The pressure drag due to blunt leading edges on two-dimensional aerofoils, at transonic and low-supersonic speeds. May, 1965.	Graham, W. J.
3466	27 137	The effects of base bleed on plug nozzles. February, 1965.	Reid, J.
3467	27 150	A numerical method for solving the equations for a vortex core. May, 1965.	Hall, M. G.
3468	27 175	A discussion of two-dimensional turbulent base flows. July, 1965.	Nash, J. F.
3469	27 235	Heat-transfer and pressure measurements on the upper surface of a delta wing at incidence at Mach numbers between 2.0 and 3.6. July, 1965.	Edwards, J. B. W.

R. & M. No.	Council No.	Title	Author(s)
3470	27 330	Wind tunnel tests on a streamlined fan-lift nacelle. Part I. Tests on nacelle alone and with wings or underfins fitted. Part II. The effect of forward speed on the lift produced by a lifting fan and its inlet.	Hackett, J. E.
3471	27 547	The calculation of the warp to produce a given load and the pressures due to a given thickness on thin slender wings in supersonic flow. November, 1965.	Smith, J. H. B. Beasley, J. A. Short, Diana Walkden, F.
3472	27 581	Computer calculations of relaxation regions and equilibrium conditions for shock waves with tables for CO ₂ and N ₂ O. December, 1965.	Rees, T.
3473	25 695	Experiments at $M_0 = 4.03$ on two families of pressure-plotting wing-and-half-cone combinations. March, 1964.	Rogers, E. W. E. Attridge, J. L. Macdonald, A. G. J. Callinan, J.
3474	27 089	Fatigue test results and analysis of 42 Piston Provost wings. April, 1965.	Parish, H. E.
3475	27 645	Physical characteristics of the sonic bangs and other events at exercise Westminster. November, 1965.	Webb, D. R. B. Warren, C. H. E.
3476	27 149	Some flight measurements of crosswind landings on a small delta aircraft (Avro 707A). April, 1965.	Staples, K. J.
3477	26 495	The design-point performance of model internal-expansion propelling nozzles with area ratios up to 4. December, 1963.	Herbert, M. V. Martlew, D. L. Pinker, R. A.
3478	26 437	Some exact calculations of the lift and drag produced by a wedge in supersonic flow, either directly or by interference. August, 1964.	Roe, P. L.
3479	26 110	Temperature and pressure studies in the reservoir of a reflected-shock hypersonic tunnel. December, 1964.	Lapworth, K. C. Townsend, J. E. G.
3480	26 543	Transonic flow in the throat region of an annular nozzle with an arbitrary smooth profile. January, 1965.	Moore, A. W. Hall, I. M.
3481	26 542	The transonic flow in the throat region of a two-dimensional nozzle with walls of arbitrary smooth profile. January, 1965.	Moore, A. W.

R. & M. No.	Council No.	Title	Author(s)
3482	26 600	Flight determination of wing flow patterns and buffet boundaries for the Fairey Delta 2 aircraft at Mach numbers between 0.4 and 1.3 and comparison with wind tunnel results. September, 1964.	Dee, F. W. Nicholas, O. P.
3483	26 821	Leakage and secondary flows in axial compressor cascades. March, 1965.	Lakshminarayana, B. Horlock, J. H.
3484	27 647	On the development of the incompressible turbulent boundary layer. March, 1965.	McDonald, H. Stoddart, J. A. P.
3485	27 376	Flight measurements of the elevator and aileron hinge-moment derivatives of the Fairey Delta 2 aircraft up to a Mach number of 1.6 and comparisons with wind-tunnel results. July, 1965.	Rose, R. Nicholas, O. P. Vorley, Glynis
3486	27 492	Low-speed wind-tunnel tests on a 1/8th scale model of the Handley-Page HP. 115. August, 1965.	Engler, P. B. E. Moss, G. F.
3487	18 273	The calculation of the spanwise loading of sweptback wings with flaps or all-moving tips at subsonic speeds. September, 1955.	Brebner, G. G. Lemaire, D. A.
3488	27 166	Comparative numerical applications of the reverse-flow theorem to oscillating wings and control surfaces. August, 1965.	Lehrian, Doris E. Garner, H. C.
3489	17 632	Some early experiments on vortex separation. Part I. Some low speed aerodynamics properties of cones.	Fink, P. T.
	17 854	Part II. Some low speed experiments with 20 degree delta wings.	Fink, P. T. Taylor, J.
	19 526	Part III. Further experiments with 20 degree delta wings. 1955-1957.	Fink, P. T.
3490	27 402	The measurement of skin friction in supersonic flow by means of heated thin film gauges. October, 1965.	Bellhouse, B. J. Schultz, D. L.
3491	26 151	The radiation sound field of a rectangular panel set in an infinite wall and excited by a turbulent boundary layer. April, 1964.	Davies, D. E.
3492	27 037	Design and test of a series of annular aerofoils. March, 1965.	Ryall, D. L. Collins, I. F.

R. & M. No.	Council No.	Title	Author(s)
3493	27 372	Some calculations of the take-off behaviour of a slender-wing supersonic transport design constrained to follow a specified pitch-altitude time history. August, 1965.	Tomlinson, B. N. Judd, M.
3494	27 688	Wind-tunnel tests on a nacelle fitted with two lifting fans in tandem. January, 1966.	Gregory, N. Love, Edna M.
3495	28 130	An electric analogue computer representing twelve coupled linear differential equations. December, 1965.	Hicks, W. D.
3496	27 991	A graphical representation of the binary flutter equations in normal co-ordinates. January, 1966.	Niblett, Ll. T.
3497	27 610	The subcritical response and flutter of a swept-wing model. August, 1965.	Irwin, C. A. K. Guyett, P. R.
3498	27 982	Calculation of the response of a flexible aircraft to harmonic and discrete gusts by a transform method. November, 1965.	Mitchell, C. G. B.
3499	28 089	Low-speed measurements of skin friction on a slender wing. February, 1966.	Wyatt, L. A. East, L. F.
3500	28 339	The theory of interference effects on dynamic measurements in slotted-wall tunnels at subsonic speeds and comparisons with experiment. September, 1966.	Garner, H. C. Moore, A. W. Wight, K. C.
3501	27 559	Measurements of skin friction on a cambered delta wing at supersonic speeds. August, 1965.	Winter, K. G. Smith, K. G.
3502	22 637	The flow produced by interaction of a turbulent boundary layer with a normal shock wave of strength sufficient to cause separation. March, 1960.	Seddon, J.
3503	24 509	Aerodynamic loads on external stores: a review of experimental data and methods of prediction. November, 1962.	Marsden, P. Haines, A. B.
3504	26 140	The linearized flow field of a relaxing gas through a non-uniform channel and in a jet at supersonic speeds. August, 1964.	Lilley, G. M. Stevenson, M. Anne
3505	25 713	Experiments with cones in low-density flows at Mach numbers near 2. March, 1964.	Rogers, E. W. E. Berry, C. J. Davis, Miss B. M.

R. & M. No.	Council No.	Title	Author(s)
3506	26 656	An experimental investigation of the interaction between a forward-facing step and a laminar boundary layer in supersonic low-density flow. January, 1965.	Rogers, E. W. E. Berry, C. J. Davis, Miss B. M.
3507	28 225	The performance of fans in Hovercraft: a method of reducing experimental results. November, 1965.	Burgess, A. J.
3508	28 283	Take-off tests on a transport aircraft including the use of a "Scat" take-off director. April, 1966.	O'Leary, C. O. Cannell, J. N. Maltby, R. L.
3509	28 246	A digital computer program for the through-flow fluid mechanics in an arbitrary turbomachine using a matrix method. July, 1966.	Marsh, H.
3510	16 446	Examples of the effects of shock-induced boundary-layer separation in transonic flight. January, 1954.	Pearcey, H. H. Holder, D. W.
3511	28 319	Air condensation effects measured in the RAE 7 in. x 7 in. hypersonic wind tunnel. April, 1966.	Crane, J. F. W. Marshall, R. J.
3512	28 487	Bibliography of heat transfer instrumentation. November, 1966.	Bayley, F. J. Turner, A. B.
3513	25 175	The combination of statistical distributions of random loads. March, 1963.	Bullen, N. I.
3514	27 224	A theory of the aerodynamic interference between a helicopter rotor blade and a fuselage and wing in hovering and forward flight. June, 1965.	Bramwell, A. R. S. Appendix by Johnson, J. B. B.
3515	28 116	The steady laminar incompressible boundary-layer problem as an integral equation in Crocco variables: investigations of the similarity flows. June, 1966.	Hills, R. D.
3516	27 779	Some numerical methods for obtaining harmonic and subharmonic solutions of Duffing's equation. October, 1965.	Newby, M.
3517	27 926	Algol 60 programme for Multhopp's low-frequency subsonic lifting-surface theory. April, 1966.	Garner, H. G. Fox, D. A.
3518	28 391	Exploratory investigation of the effects of blowing from the leading edge of a delta wing. April, 1966.	Trebble, W. J. G.

R. & M. No.	Council No.	Title	Author(s)
3519	28 046	The heating of air by 'Dark' discharge. May, 1966.	Hesselgreaves, J. E. Nonweiler, F. Foord, T. R.
3520	28 107	The variation of profile drag with Mach number up to the critical value; a comparison of recent predictions with early flight and wind-tunnel measurements, and a comment on an earlier prediction. June, 1966.	Osborne, J.
3521	28 725	Tables of supersonic symmetrical flow around right circular cones, with and without the addition of heat at the wave. August, 1966.	Bartlett, R. S.
3522	28 513	Real air effects in propelling nozzles. September, 1966.	Ascough, J. C.
3523	28 586	Calculation methods for three-dimensional turbulent boundary layers. December, 1966.	Smith, P. D.
3524	28 616	A piloted simulator study of the take-off manoeuvre of a large aircraft with and without a take-off director. August, 1966.	O'Leary, C. O. Perry, D. H.
3525	28 724	Measurement of skin friction at low subsonic speeds by the razor-blade technique. August, 1966.	East, L. F.
3526	28 549	An experimental investigation of the compressible turbulent boundary layer with air injection. November, 1966.	Jeromin, L. O. F.
3527	28 327	The effect of turbulence on static-pressure tubes. September, 1966.	Bradshaw, P. Goodman, Miss D. G.
3528	27 303	Half-body and wing combinations in supersonic flow: a review of some principles and possibilities. March, 1965.	Goldsmith, E. L. Cook, P. H.
3529	28 320	Boundary-layer bleed drag at supersonic speeds. April, 1966.	Goldsmith, E. L.
3530	27 416	The laminar boundary layer on an inclined cone. August, 1965.	Cooke, J. C.
3531	26 848	A theoretical exploration of the flow about an electric arc transverse to an airstream using potential flow methods. March, 1965.	Broadbent, E. G.

R. & M. No.	Council No.	Title	Author(s)
3532	26 635	On the formation of white-light fringes in a Mach-Zehnder interferometer. November, 1964.	Zienkiewicz, M. K.
3533	28 503	Two-dimensional laminar compressible boundary-layer programme for a perfect gas. August, 1966.	Sells, C. C. L.
3534	28 202	Generalized airforces on a cylindrical shell oscillating harmonically in a uniform flow. December, 1965.	Davies, D. E.
3535	28 359	A numerical method for calculating the pressure due to thickness on symmetrical wings at zero incidence in supersonic flow. September, 1966.	Eldridge, R. H. Walkden, F.
3536	28 926	Whirl of an aircraft power plant installation and its interaction with the flutter motion of a flexible wing. August, 1966.	Smith, G. E.
3537	28 559	Measurements in a three-dimensional turbulent boundary layer in subsonic flow. July, 1966.	Hall, M. G. Dickens, H. B.
3538	27 873	Measurements of the performance of a turbo-jet engine with reheat (Rolls-Royce RA28R Avon) in high speed flight and under simulated conditions in test beds. February, 1966.	Woodfield, A. A. Cronin, Ann Vorley, Glynis
3539	24 846 25 087	The design of compression surfaces for high supersonic speeds using conical flow fields. March, 1963.	Jones, J. G. Woods, B. A.
3540	28 924	Alleviation of leading-edge heating by conduction and radiation. October, 1966.	Capey, E. C.
3541	28 614 29 217	Investigations on an experimental single-stage turbine of conservative design. Part I. A rational aerodynamic design procedure. Part II. Test performance of design configuration. August, 1966 (I): June, 1967 (II).	Smith, D. J. L. Johnson, I. H. Smith, D. J. L. Fullbrook, D. J.
3542	28 668	The calculation of turbulent boundary layers with injection. January, 1967.	McQuaid, J.
3543	28 825	Minimum drag surfaces of a given lift which support two-dimensional supersonic flow fields. September, 1966.	Pike, J.
3544	23 371 24 431	The stability of rotor blade flapping motion at high tip speed ratios. January, 1963.	Lowis, O. J.

R. & M. No.	Council No.	Title	Author(s)
3545	28 941 29 183	A numerical solution of the analysis and design problems for the flow past one or more aerofoils or cascades. Part I. The analysis problem. Part II. The design problem. June, 1967.	Wilkinson, D. H.
3546	29 337	Stress concentration factors for reinforced rounded-square holes in sheets. January, 1967.	Sobey, A. J.
3547	28 611	The effect of change in axial velocity on the potential flow in cascades. September, 1966.	Shalan, M. R. A. Harlock, J. H.
3548	28 195	Asymptotic solutions of linear stationary integro-differential equations. July, 1966.	Milne, R. D.
3549	28 735	Experiments on incompressible turbulent boundary layers with distributed injection. January, 1967.	McQuaid, J.
3550		Published reports and memoranda of the Aeronautical Research Council. Nos. 3451-3550. April, 1968.
