## List of Current Papers

published for

THE AERONAUTICAL RESEARCH COUNCIL  
(Numbers 751-800)

and placed on sale by H. M. Stationery Office

C.P. No.	Council No.	Title	Author(s)
751	25 134	A theoretical approach to air bag shock absorber design. (February, 1963).	Browning, A.C.
752	25 271	On forward ejection for thermal insulation in hypersonic flight. (August, 1963).	Hall, M. G.
753	25 597	Wind tunnel tests at $M = 2.0$ on interference effects between intake flows in a four-engine nacelle. (September, 1963).	Dobson, M. D.
754	25 000	Tests on a Hunter F.2 of two strain gauge methods for measuring tailplane loads in flight, with some loads measured in level flight, pitch-ups and transonic dives. (April, 1963).	Nicholas, O. -P.
755	25 029	A parameter theory for the compressible flow through variable-area turbo-machines. (May, 1963).	Beavers, G. S.
756	25 878	Temperature measurements on a plasma jet. (February, 1964).	Wells, A. Kennett, R. H.
757	22 371	A collection of data on the lift-dependent drag of uncambered slender wings at supersonic speeds. (July, 1960).	Courtney, A. L.
758	25 349	On the variation of profile drag coefficient below the critical Mach number. (November, 1963).	Nash, J. F. Moulden, T. H. Osborne, J.

C.P. No.	Council No.	Title	Author(s)
759	25 401	A free-flight investigation of wing-body junction design for a transonic swept-wing aircraft. (August, 1963).	Hunt, G. K.
760	25 592	Calibration methods for the accurate assessment of the static and dynamic performance of some flight test instruments. (September, 1963).	McLaren, I.
761	25 214	Flutter calculations on a body with aft wings. (August, 1963).	Broadbent, E. G. Hartley, E. V.
762	25 707	Low speed wind tunnel calibration of a new pitot-static head (Mk.10) insensitive to incidence. (November, 1963).	Mabey, D. G.
763	26 011	Some examples of the use of a conical shadowgraph technique. (March, 1964).	Pierce, D. Treadgold, D.
764	21 288	Radio propagation through rocket exhaust jets: Part I - electromagnetic wave propagation in an ionised medium. (February, 1959).	Williams, H.
765	25 922	Tables of the function $\frac{x^n K_n(x)}{2^{n-1}(n-1)!}$ for use as cumulative frequency distributions. (February, 1964).	Bullen, N. I. Busby, Elizabeth.
766	25 168	Annular cascade experimental investigations of conical actuator disc theory and of non-uniform flow through plane walled diverging or converging ducts. (October, 1963).	Lewis, R. I.
767	25 640	Measurements of pressure fluctuations on the surface of a delta wing. (August, 1963).	Krishnamoorthy, V.

C.P. No.	Council No.	Title	Author(s)
768	26 009	Supersonic wind tunnel measurements of the loads and internal pressure distributions on ducts at incidence. (February, 1964).	Cook, P. H.
769	25 132	Some computer programmes for the calculation of chemical equilibrium composition, with application to combustion and propulsion systems. (May, 1963).	Raynor, Diana. Thorpe, J. B. J.
770	25 486	High pressure real gas drivers and tailoring in shock tunnels. (December, 1963).	Davies, L.
771	25 541	Calculations of the thermodynamic properties of nitrogen at high pressures. (January, 1964).	Wilson, J. L. Regan, J. D.
772	25 634	A simple method for real gas flow calculations. (February, 1964).	Wilson J. L. Regan, J. D.
773	25 693	Free-flight measurements of the drag and longitudinal stability of a transonic M-Wing aircraft. (November, 1963).	Edwards, J. B. W.
774	25 708	The pressure distribution at zero-lift on some slender delta wings at supersonic speeds. (November, 1963).	Firman, M. C. P.
775	25 736	Low-speed wind-tunnel tests on a series of cambered ogee wings. (November, 1963).	Earnshaw, P. B.
776	25 794	Bow-shock establishment and stagnation-point pressure measurements for a blunt-nosed body at supersonic speeds. (April, 1964).	Davies, L.
777	25 930 25 951	The movement of high-current arcs in transverse external and self-magnetic fields in air at atmospheric pressure. (May, 1964).	Spink, H. C. Guile, A. E.

C.P. No.	Council No.	Title	Author(s)
778	25 837	Wind tunnel tests between $M = 0.4$ and $2.0$ on a cambered wing of slender ogee planform. (December, 1963).	Dobson, M. D. King-Underwood, R.
779	25 692	A simple method of calculating the flow produced in an annular electric arc heater. (November, 1963).	Shaw, J. M.
780	25 839	Measurement of aerodynamic heat transfer in intermittent wind-tunnels. (January, 1964).	Naysmith, A.
781	26 010	Flight and tunnel tests to develop a thermal detector for determining the boundary-layer state. (February, 1964).	Cronin, Ann. Nicholas, O. P.
782	25 524	Effect of flow curvature due to the fuselage on the flapping motion of a helicopter rotor. (July, 1963).	Willmer, M. A. P.
783	25 429	The change of pitot pressure across oblique shock waves in a perfect gas. (December, 1963).	Graham, W. J. Davis, Miss B. M.
784	20 287	Mach number distributions along the slotted walls of the N.P.L. 20 in. x 8 in. high-speed wind tunnel. (July, 1958).	Pearcey, H. H. Regan, J. D. - Nat. Phys. Lab.
785	26 237	Atmospheric turbulence encountered by Hermes aircraft on routes to Africa and the Far East. (May, 1964).	Aplin, Judy E.
786	25 880	Effects of varied loading paths on fatigue endurances: Part I - some load fatigue properties of Nimonic 90 at elevated temperatures. (December, 1963).	Tilly, G. P.

C.P. No.	Council No.	Title	Author(s)
787	26 055	Effects of varied loading paths on fatigue endurances: Part II - some load fatigue properties of H46 at room temperature. (March, 1964).	Tilly, G. P.
788	26 056	Effects of varied loading paths on fatigue endurances: Part III - some stress fatigue properties of H46 at elevated temperatures. (June, 1964).	Tilly, G. P.
789	24 681	Proposals for an integrated wind tunnel-flight dynamics simulator system. (November, 1962).	Beecham, L. J. Walters, W. L. Partridge, D. W.
790	25 921	Effect on the static strength of aluminium alloy test specimens of the attachment of thermocouples by a welding technique. (January, 1964).	Wright, D. F. Acheson, G. F.
791	25 966	Pressure distribution measurements on a series of slender delta body shapes at Mach numbers of 6.85 and 8.60. (February, 1964).	Peckham, D. H.
792	26 189	A semi-empirical prediction method for pressures on the windward surface of circular cones at incidence at high supersonic and hypersonic speeds ( $M \geq 3$ ). (June, 1964).	Collingbourne, J. R. Crabtree, L. F. Bartlett, W. J.
793	26 123	The mixing between hot and cold airstreams in a centrifugal field. (April, 1964).	Stratford, B. S. Jawor, Z. M. Smith, Miss Maureen
794	26 393	A comparison of rivet shear strengths obtained from two-rivet specimens and from multi-rivet specimens at room temperature and 150°C. (August, 1964).	Wright, D. F. Judson, P. Horrocks, P. W.

C.P. No.	Council No.	Title	Author(s)
795	25 419	Aircraft vortex wakes and their effects on aircraft. (December, 1963).	Rose, R. Dee, F. W.
796	26 075	The design and development of an air-bearing for the measurement of damping in yaw on a jet-blowing model. (April, 1964).	Cox, A. P.
797	26 104	The steady flow of viscous fluid past a circular cylinder. (August, 1964).	Dennis, S. C. R. Shimshoni, M.
798	23 303	Wind tunnel tests at Mach numbers up to 1.8 on a model with 1/36 scale wings and nacelles of a twin-engined supersonic aircraft (Bristol 188). (February, 1958).	Sutton, E. P. Hutton, P. G. Squire, L. C.
799	26 622	The calculation of aircraft motion in design rolling manoeuvres. (October, 1964).	Eckford, D. J.
800	-	List of Current Papers published for the Aeronautical Research Council. (Nos. 751-800)	-
